

Qurban Hanif

FULL STACK SOFTWARE ENGINEER

📍 Lahore, Pakistan | 📞 03085651015 | ✉ qurbanhanif120@gmail.com | 🌐 qurban-hanif | 📱 qurban7860 | 🌐 Portfolio

SUMMARY

Full Stack Software Engineer with 3+ years of experience designing and building scalable SaaS platforms, enterprise applications, and AI-powered solutions. Experienced across frontend, backend, system design, and cloud deployment with expertise in React, Next.js, Node.js, TypeScript, PostgreSQL, and modern AI workflows. Built production-grade CRM systems, workflow automation platforms, ATS resume builders, and multi-tenant SaaS products focused on scalability, performance, security, and exceptional user experience. Passionate about solving complex business problems through clean architecture, automation, and data-driven engineering.

KEY ACHIEVEMENTS

- Built multiple production-grade SaaS platforms including a Multi-Tenant CRM, ATS Resume Builder, and 3D SaaS Portfolio Platform.
- Developed AI-powered workflows using LLM integrations and Retrieval-Augmented Generation (RAG) systems.
- Engineered enterprise applications featuring RBAC, workflow automation, real-time collaboration, and scalable system architecture.
- Delivered software solutions using React, Angular, Next.js, NestJS, TypeScript, PostgreSQL, and cloud-native technologies.
- Designed and deployed full-stack applications focused on scalability, security, performance optimization, and exceptional user experience.

EXPERIENCE

TallyMarks Consulting (TMC) | *Software Engineer* | Lahore, Pakistan

11/2025 – Present

- Engineered scalable enterprise applications using React, Next.js, TypeScript, and modern frontend architecture principles.
- Architected AI-powered features and RAG-based workflows by integrating LLMs, vector databases, and enterprise data sources for high-accuracy retrieval.
- Collaborated with cross-functional product teams to deliver production-ready solutions, optimizing for maximum performance, maintainability, and exceptional user experience.

Sigi Technologies | *Frontend Engineer* | Lahore, Pakistan

07/2025 – 11/2025

- Architected the client-facing frontend of the BusyBeans Coffee U.S. platform using Next.js, Tailwind CSS, and aggressive SSR/SSG caching strategies.
- Spearheaded role-based user experiences that streamlined complex account workflows and improved overall operational efficiency by 25%.
- Optimized rendering performance, code-splitting, and responsive layouts to guarantee consistent, high-speed experiences across desktop and mobile devices.

Terminus Technologies | *Software Engineer* | Lahore, Pakistan

05/2024 – 07/2025

- Engineered enterprise ERP interfaces for Howick Ltd, a global engineering powerhouse serving customers across 75+ countries.
- Developed real-time production monitoring dashboards utilizing React and Redux, significantly improving reporting visibility and operational throughput.
- Designed and integrated 20+ high-throughput RESTful APIs using Node.js and MongoDB, enforcing highly scalable database structures and clean backend architecture.

SKILLS

Languages & Architecture: JavaScript, TypeScript, Python, SQL, System Design, Multi-Tenant SaaS, RBAC, Microservices

Frontend Development: React.js, Next.js (SSR/SSG), Angular, Redux, Zustand, TanStack Query, Material-UI, Tailwind CSS

Backend & Databases: Node.js, Nest.js, Express.js, REST APIs, PostgreSQL, MongoDB, Redis, Prisma ORM, Supabase, WebSockets, Stripe

Cloud, AI & DevOps: AWS (EC2, S3), Docker, CI/CD, GitHub Actions, LLM Integration, RAG Systems, Vector Databases

PROJECTS

Enterprise CRM Platform (Multi-Tenant SaaS) | *Angular, Nest.js, PostgreSQL, WebSockets, Stripe*

04/2026

- Architected a production-grade multi-tenant CRM platform featuring robust contact management, sales pipelines, workflow automation, RBAC, and Stripe billing integrations.
- Designed scalable backend architecture with enterprise-grade security protocols, comprehensive audit logging, and automated reporting.
- Implemented high-concurrency WebSockets, subscription management, and custom workflows to drive modern SaaS business operations.

3D SaaS Portfolio | *Three.js, React, Express.js, SQLite, Tailwind CSS*

11/2024

- Built a high-performance SaaS portfolio platform featuring an integrated CMS and secure admin panel, empowering users to manage and deploy dynamic content via automated routing.
- Developed a distributed full-stack architecture using React, Three.js, Express.js, and SQLite, supporting real-time interactive themes and scalable media uploads.

Resume Builder SaaS | *Next.js, TypeScript, Zustand, Tailwind CSS, AI/LLMs*

10/2025

- Engineered an ATS-focused multi-tenant resume builder providing automated parsing, AI-assisted content optimization, ATS scoring engines, live WYSIWYG previews, and dynamic PDF generation.
- Architected the system utilizing Next.js, TypeScript, Zustand, and Tailwind CSS to deliver ultra-fast, recruiter-friendly templates with real-time semantic validation.

EDUCATION

Punjab University College of Information Technology (PUCIT), Lahore

10/2020 – 06/2024

BS Software Engineering

Lahore, Pakistan

Coursework: Software Engineering, Web Engineering, OOP, DSA, DBMS, Problem Solving, UI/UX Principles

CERTIFICATES & AWARDS

- Full Stack Web Development (MERN) Bootcamp | Udemy (2024)
- JavaScript Algorithms and Data Structures | freeCodeCamp (2023)
- Meta Front-End Developer Certificate | Coursera (2023)
